Position Summary:

Cloudwerx Data Solutions Inc. is looking for a Senior SQL DBA to join our leading customer service team. The Senior SQL DBA will provide enterprise level Microsoft SQL Server architecture, design, administration, implementation, analysis, and operational excellence. The chosen candidate will have experience with promoting SQL Server performance, availability, reliability, and scalability. This position will involve both internal and client facing solutions.

Essential Functions:

- Responsible for SQL Server components in Data Center, including the design, support and implementation of current SQL Server projects and future Data Center products and systems
 - Design, Implement, and maintain SQL Servers, replication, performance, analysis, benchmarks, tools, and other items related to Microsoft SQL Server
 - Ensure operational excellence of multiple data centers' SQL clusters
 - Generate reports on system health, availability, uptime, patch level, etc.
- Support overall data center operations, including, but not limited to:
 - Cisco Networks (Firewall, Routers, Switches, Access points, etc.)
 - Windows Servers (Active Directory, exchange, etc.)
 - Linux and UNIX systems
 - Citrix Servers (Xenapp, Access Gateway)
 - VMWare
 - All hardware that is installed in the data centers

*Actual responsibilities to be matched to candidate skillsets
- Project management of new projects, these may include new client installs, existing client upgrades, data center enhancements, etc.

- Maintain and adhere to a Change Management Policy in the Data Center for all customer impacting changes
- Provide technical leadership for all of Cloudwerx products and services
- Provide documentation suited for all technical resources in regards to the operations of the Data Center (Data Center Operations Guide)
- Continuous research and development of the latest technology products that best suit client's current and future needs
- Provide senior IT consultation services for other departments within QHR and clients on an as needed basis
- Other duties may be assigned, directed or requested

Qualifications:

- Minimum 4-7 years SQL Server experience, ideally in environments with more than 2000 concurrent SQL Server users
- Thorough understanding of Microsoft Windows Server and Microsoft SQL Server
- Strong systems knowledge of Cisco Networks, Citrix environments, VMWare Virtualization, SAN hardware, etc.
- Understanding of SLA's
- Understanding and adherence to Change Management Processes
- Data center operations an asset

Total Rewards:

We offer a competitive compensation and attractive benefits package.

Please submit your cover letter and resume to: lbarrett@QHRTechnologies.com

Thanks to all those that apply. Only those chosen for an interview will be contacted.

QHR Technologies Inc. has a vision of being a Top 100 Technology Company and a Top 100 Employer. Our results and culture all point to personal growth, opportunities and success. Optimed Software Corporation is a wholly owned subsidiary of QHR Technologies Inc., a publicly listed company (TSX-V:QHR). QHR Technologies was recently recognized by the 2010 Branham 300 list in the 'Top 5 Pure Play Healthcare Companies' list, the 'Top 10 Growth Companies' and the 'Top 20 Movers and Shakers' list as well as listed on the 'TSX Venture Exchange Top 50' list.
