Position Summary:

The successful candidate will join the Technical Services team, responsible for the thorough planning, consulting and implementation of our various services. They will be responsible for completing all technical analysis, configuration, and installation of our services. This Technical Services Consultant may be required to travel to physician clinics and install, configure and provide go-live support as may be required. This position will be based primarily in Toronto and may involve travel within the province of Ontario up to 20 weeks per year.

Essential Functions:

- Conduct hosted and client server installations
- Coordinate and/or complete pre-configuration, testing and delivery of services
- Perform all implementation tasks/activities as specified within the project plan
- Provide timely communications to the sales, implementations and management teams on progress and any issues requiring escalation.
- Responsible for monthly management and maintenance of continued services such as Backups and server maintenance
- Responsible for complete technical analysis including onsite and/remote assessment, hardware upgrades, new product and services reviews
- Responsible for ensuring that the client expectations are met with a high-degree of quality
- Completion of technical documentation and knowledge based artifacts to support services provided
- Assist with new system training with clientele and the development of online training tools or instructional videos as may be required

Qualifications:

- Computer Engineering diploma or equivalent required
- Minimum 2 years IT experience in Microsoft Active Directory, SQL Server, and Exchange required
- Minimum 2 years of networking experience required
- Strong problem solving skills and the ability to work in a fast-paced environment required
- Strong knowledge of Citrix, Sun Ray and Terminal Services technologies an asset
- Excellent time management and the ability to work independently a must
- Detail oriented and organizational skills required
- Excellent communication skills both internally and with clientele
- Previous experience in the medical field or with EMR applications an asset
- Experience with enterprise backup systems an asset

Total Rewards:

We offer a competitive compensation and attractive benefits package.
